

Acer rubrum 'Sun Valley'

Высота	10-12 m
Ширина	6-8m
Крона	oval, dark, dense crown
Кора и ветви	grey
Лист	green
Осенний окрас	красный
Цветы	red, flowers in March
Плоды	fruitless cultivar
Колючки/шипы	None
Ядовитость	неядовитый, обычно
Вид почвы	loamy soil, sandy soil, acid soil
Мощение	устойчив к частичному мощению
Зона зимостойкости	4 (-34,4 до -28,9 °C)
Устойчивость к ветру	bad
Прочие виды устойчивости	устойчив к морозам, зона 1 - 6
Применение	аллеи и широкие улицы
Форма	штамбовое дерево, многоствольное дерево

Strongly growing selection of the U.S. National Arboretum, with an oval crown. The tree was selected in a hybridisation programme, with the aim of achieving improved resistance to leafhoppers. It was derived by crossing A. rubrum 'Red Sunset' with 'Autumn Flame'. The dark green leaf turns deep red in autumn. Highly suitable as an avenue, street and park tree. Also fine for use along driveways and such like. Its growth will stagnate on calcareous soil. In such soil, as with very dry soil, the autumn change of colour will be less noticeable. Intolerant to (sea) wind.
