

Aralia elata 'Variegata'

Высота	3-5 m
Ширина	3-4m
Крона	vase-shaped, light, open crown, capricious growing
Кора и ветви	gray with venomous spines
Лист	cream variegated, pinnate compound leaf
Осенний окрас	желтый, оранжевый, красный
Цветы	in large plumes upto 35cm long, cream white, flowers in August
Плоды	black, 6mm
Колючки/шипы	Yes
Ядовитость	ядовитые части
Вид почвы	clayed soil, loamy soil, sandy soil, peaty soil, all soil types
Влажность почвы	устойчив к сухим почвам, устойчив к коротким наводнениям
Мощение	неустойчив к мощению
Зона зимостойкости	5 (-28,8 до -23,4 °C)
Устойчивость к ветру	not good
Прочие виды устойчивости	устойчив к морозам, зона 1 - 6
Дерево-среда обитания для животных	устойчив к морозам, зона 1 - 6, привлекает бабочек
Применение	небольшие сады, сады в патио
Форма	многоствольное дерево

Aralia elata 'Variegata', like the green-leaved species A. elata, this variegated variant is also a very characteristic tree. It has more or less the same growth form as the green-leaved species and grows with relatively few, thick branches into a vase-shaped, later round tree of about 5 m. Initially, the tree grows vase-shaped, but at a later age the growth length decreases and the crown becomes round. The thick branches are strongly spiny. The double-pinnate leaves are very large, sometimes up to more than a metre long. They consist of up to 80 partial leaves that are green with narrow creamy-white margins. The autumn colours are yellow to orange-red with the white-white parts turning redder. Large panicles of creamy white flowers appear in August, sometimes followed by small black fruits. The flowers are crowded by bees. Like A. elata, 'Variegata' prefers a somewhat sheltered spot in full sun or semi-shade. The tree can form a lot of root storage through underground shoots, which can be a nuisance in some cases. Prevent the tree from catching a lot of wind; the large compound leaves are easily damaged. Plant the tree in nutrient-rich, humus-rich soil that is sufficiently moist, even though temporary drought is well tolerated. Beautiful solitary tree or for use
