

Morus alba 'Nana Issai'

Высота	3,5 m
Ширина	3-4m
Крона	round/spherical, half-open crown
Кора и ветви	grey
Лист	green
Цветы	green, flowers in May-June, inconspicuous bloom
Плоды	edible fruits, red, inconspicuous
Колючки/шипы	None
Ядовитость	неядовитый, обычно
Вид почвы	clayed soil, loamy soil, sandy soil, peaty soil, nutrient-poor soil, all soil types
Влажность почвы	устойчив к сухим почвам
Мощение	неустойчив к мощению
Зона зимостойкости	5a (-28,8 до -26,1 °C)
Устойчивость к ветру	fairly to good
Прочие виды устойчивости	устойчив к морозам, зона 1 - 6
Применение	кашпо для деревьев, небольшие сады, сады в патио
Форма	штамбовое дерево

Morus alba 'Nana Issai' is a small tree with a round crown. The crown is naturally quite open and if a denser crown is desired, corrective pruning should be carried out. 'Nana Issai' grows about 3.5 m high, but as the tree is usually grafted on a tall stem, a small trunk tree is created. The green leaves do not produce autumn colours, nor is flowering very conspicuous. The fruits (mulberries), on the other hand, are attractive. Not because they are hugely conspicuous, but because they are edible. So it is a female cultivar.

'Nana Issai' is an easy tree that grows on all soil types. The tree tolerates a lot of heat and dry soil. Suitable for small-scale uses such as parks, squares and (private) gardens. Hardiness zone 5a.
