

Robinia pseudoacacia 'Nyirségi'

Высота	20 - 25 m, fast growing
Ширина	10-15m
Крона	oval, half-open crown
Кора и ветви	twigs olive green to brown, large thorns, bark grey-brown, deeply grooved
Лист	odd-pinnate, 20 - 30 cm, 9 - 19 leaf segments, 1.5 - 4.5 cm, dark blue-green, feathered leaf
Цветы	rare ♂ blossoms, in pendent racemes to 10 cm, cream ♂ white, about 2 cm, fragrant, June , fragrant flowers
Плоды	very few, flat leathery pod, reddish brown, 5 - 10 cm
Колючки/шипы	Yes
Ядовитость	ядовитые части
Вид почвы	few requirements as long as well drained
Влажность почвы	устойчив к сухим почвам
Мощение	устойчив к мощению
Зона зимостойкости	5a (-28,8 до -26,1 °C)
Устойчивость к ветру	moderate to good
Прочие виды устойчивости	устойчив к морозам, зона 1 - 6, устойчив к соли для улиц
Применение	аллеи и широкие улицы, промышленные зоны
Форма	штамбовое дерево, многоствольное дерево
Происхождение	Hungary, before 1980

Robinia pseudoacacia 'Nyirsegi' is a Hungarian-origin selection that grows quickly and has a straight trunk with strongly ascending branches. Specially selected for its strong fibre, therefore used for hand tools. Height 20 - 25 m. Because of its vigorous growth, it is often used as a rootstock for 'Umbraculifera'. Characteristic are the large thorns on the branches. The compound leaves are dark blue-green. Short clusters of creamy-white flowers appear in June but the flowering time is shorter than for the species. Produces few legumes. Less wind sensitive than other cultivars. Hardiness zone: 5a
