

Magnolia ×soulangeana

'Satisfaction'

Высота	2-3 m
Ширина	5-8m
Крона	wide oval to round , half-open crown, capricious growing
Кора и ветви	brown, grey
Лист	green
Цветы	white, purple-red, flowers in April-May
Колючки/шипы	None
Ядовитость	неядовитый, обычно
Вид почвы	clayed soil, loamy soil, sandy soil, peaty soil, acid soil
Мощение	неустойчив к мощению
Зона зимостойкости	6b (-20,5 до -17,8 °C)
Устойчивость к ветру	good
Прочие виды устойчивости	устойчив к морозам, зона 1 - 6, сустойчив к ветру
Применение	кашпо для деревьев, сады на крыше
Форма	многоствольное дерево

Magnolia ×soulangeana 'Satisfaction', is a new cultivar within soulangeana. Its beautiful compact growth habit makes it an excellent choice for smaller gardens. The bicoloured bowl-shaped flowers that appear in April/May are deep pink outside and the inside is creamy white. Due to its later flowering, it is less likely to suffer frost damage than, for example, the stellata cultivars and will also bloom longer. The leaves are ovate to elliptical, mid-green. This magnolia does best in well-drained neutral to acidic soil. Hardiness: Zone 8b
