

Acer rubrum 'Schlesingeri'

Высота	15-20 m
Ширина	8-12m
Крона	narrow vase-shaped, dark, dense crown
Кора и ветви	grey
Лист	green
Осенний окрас	оранжевый, красный, фиолетовый
Цветы	red, flowers in March
Плоды	red
Колючки/шипы	None
Ядовитость	неядовитый, обычно
Вид почвы	loamy soil, sandy soil, acid soil
Мощение	устойчив к частичному мощению
Зона зимостойкости	4 (-34,4 до -28,9 °C)
Устойчивость к ветру	bad
Прочие виды устойчивости	устойчив к морозам, зона 1 - 6
Дерево-среда обитания для животных	устойчив к морозам, зона 1 - 6, медонос
Применение	аллеи и широкие улицы
Форма	штамбовое дерево, многоствольное дерево

Medium-sized tree with a vase-like to egg-shaped crown that is dense and closed. Height to circa 20 m. Young twigs strikingly red-brown. The leaf stalk too is red, while the leaf is bright green and circa 12 cm. The underside of the leaf is blue-green. The orange-red to deep purple colouring in autumn starts early and it is one of the nicest colourings within the A. rubrum assortment. The red flowers emerge before the leaves. The tree develops a sturdy main root with fibrous rootlets. In limy soil the growth is stunted. In this soil as well as in soil that is too dry, there will be no colouring in autumn. Poor tolerance to (sea) wind. Winter hardiness zone: 4
