

Carpinus caroliniana 'Sentinel Dries'

Высота	6-8 m
Ширина	5-8m
Крона	oval, dark, dense crown, capricious growing
Кора и ветви	grey, grey-blue
Лист	green, red on emerging
Осенний окрас	оранжевый, красный
Цветы	green, flowers in April
Плоды	brown
Колючки/шипы	None
Ядовитость	неядовитый, обычно
Вид почвы	all
Влажность почвы	устойчив к влажным почвам
Мощение	устойчив к частичному мощению
Зона зимостойкости	4 (-34,4 до -28,9 °C)
Устойчивость к ветру	good
Прочие виды устойчивости	устойчив к морозам, зона 1 - 6, сустойчив к ветру
Применение	аллеи и широкие улицы
Форма	штамбовое дерево

This medium-sized tree with a densely branched, oval crown grows to a height of about 6-8 m. The species *C. caroliniana* is somewhat variable in shape. Low, wide trees occur, but also well upright growing clones. 'Sentinel Dries' fulfils the need for a tree-shaped cultivar with an oval crown. The tree does grow somewhat erratically, giving it a more informal character. The young leaves are slightly reddish-tinged, while the summer leaves are dark green. In autumn, the leaves turn a beautiful orange-red.

'Sentinel Dries' has few soil requirements and grows best in humus-rich loamy soil. Temporarily tolerates a lot of moisture. Was marketed by Tree Nursery Pavia, Deerlijk, Belgium. Hardiness zone 4
