

## Malus domestica 'Notarisappel'

|                                    |   |
|------------------------------------|---|
| Высота                             | 6-8 m   |
| Ширина                             | 6-8m  |
| Крона                              | flatedened spherical, half-open crown   |
| Кора и ветви                       | brown, grey   |
| Лист                               | green   |
| Цветы                              | white-pink, flowers in April  |
| Плоды                              | edible fruits, yellow-green, pink-red   |
| Колючки/шипы                       | None  |
| Ядовитость                         | неядовитый, обычно  |
| Вид почвы                          | clayed soil, loamy soil, sandy soil, acid soil                                      |
| Мощение                            | неустойчив к мощению  |
| Зона зимостойкости                 | 6 (-23,3 до -17,8 °C)   |
| Устойчивость к ветру               | good, susceptible to sea wind   |
| Прочие виды устойчивости           | устойчив к морозам, зона 1 - 6, сустойчив к ветру                                   |
| Дерево-среда обитания для животных | устойчив к морозам, зона 1 - 6, сустойчив к ветру, дерево-источник питания для птиц |
| Применение                         | небольшие сады, сады в патио  |
| Форма                              | штамбовое дерево, многоствольное дерево, штамбовое фруктовое дерево                 |

'Notary apple' is a good growing medium-sized tree with a semi-open, flattened spherical crown with a height of 6-8 m. The flower buds are pink and the whitish-pink flowers open in April. The apples are ready for picking from late September to mid-October. The apples are large, round and green to yellow-green with a large pinkish-red blush and stripes. The yellow-white flesh is medium firm, juicy and pleasantly sweet aromatic. The flavour is also freshly sweet. The apples store quite well, but it is primarily a hand apple. Also suitable for making purée or juice and for use in salads. 'Notarisappel' is a Dutch cultivar found by notary van den Ham from Lunteren. Hardiness zone 6.
